DETAILED ACTION

Drawings

1. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on January 13, 2003 have been disapproved because they introduce new matter into the drawings. 37 CFR 1.121(f) states that no amendment may introduce new matter into the disclosure of an application. The original disclosure does not support the showing of the indicia as depict in proposed new figure 8. It is unclear that the indicia and inner cap would have the relationship as shown.

- 2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the indicia of "CAUTION NOT CHILD RESISTANT" must be shown or the feature canceled from the claims. No new matter should be entered. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.
- 3. The drawings are objected to under 37 CFR 1.83(a) because they fail to show the indicia of "CAUTION NOT CHILD RESISTANT" as described in the specification. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing.

 MPEP § 608.02(d).

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Objections

4. Claim 9 is objected to because of the following informalities: in line 2, "comprise first" should be changed to -- comprise a first --. Appropriate correction is required.

Terminal Disclaimer

5. The terminal disclaimer filed on November 10, 2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent Application No. 09/938,293 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

- 6. Claims 1-8 and 10-14 allowed over the art of record.
- 7. Claim 9 would be allowable if rewritten to overcome the objection set forth in this Office action.

Response to Arguments

8. Applicant's arguments filed August 14, 2003 have been fully considered but they are not persuasive.

As previously discussed with applicant's representative (see the accompanying interview summary form), the originally filed drawings fail to show every feature specified in the claims as required by 37 CFR 1.83(a).

Applicant's attempt to overcome this objection introduces new matter to the originally filed disclosure. Although the specification at page 9, paragraph 1 discloses the use of "CAUTION NOT CHILD RESISTANT", there is insufficient disclosure to support the showing of the marking as in proposed figure 8. The disclosure does not indicate which of the many possible configurations applicant had envisioned as the inventive cap. Thus, any configuration now proposed introduces new matter to the originally filed disclosure.

The objection to the drawings is repeated herein and stands as final.

Conclusion

- 9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Johnson et al. teaches the use of indicia on a cap liner.
- 10. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the

mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

- 11. In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office Actions directly into the Group at (703) 872-9306. This practice may be used for filling papers not requiring a fee. It may also be used for filling papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 3720 will be promptly forwarded to the examiner.
- 12. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely asserts that the reply is being faxed on a given date. So faxed, before the period for reply has expired, the reply may be considered timely. A suggested format for a certificate follows:

I hereby certify that this correspondence for Application Serial No. ______ is being facsimiled to The U.S. Patent and Trademark Office via fax number (703) 872-7306 on the date shown below:

Typed or printed name of person signing this certificate	
Signature	
Date	

13. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robin Hylton whose telephone number is (703) 308-1208. The examiner works a flexible schedule, but can normally be reached on Monday - Friday from 9:00 a.m. to 4:00 p.m. (Eastern time).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lee Young, can be reached on (703) 308-2572.

If in receiving this Office Action it is apparent to applicant that certain documents are missing, e.g., copies of references cited, form PTO-1449, form PTO-892, etc., requests for copies of such papers should be directed to Errica Bembry at (703) 306-4005.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-1148.
